1982 FACT SHEET

1229 people were killed in traffic accidents in 1982. This is the fewest number of traffic fatalities in Georgia since 1962.

461 of the fatalities were under 25 years old.

There were 156,817 traffic accidents reported. This does not include many accidents resulting in less than $250 damage.

60,903 people were injured in traffic accidents.

148 of the fatalities were pedestrians. 1857 pedestrians were injured; 568 were younger than 15 years old.

42% of all fatal accidents were alcohol related.

One person was killed every 7 hours and one injured every 8.6 minutes.

The leading cause of accidents was failure to yield right of way. Following too closely was second.

Motorists travelled more than 40 billion, 765 million miles in Georgia in 1982.

There were 4.5 million registered vehicles in the state at the end of 1982.

There were 4.5 million licensed drivers.

DPS issued a total of 1,305,475 drivers licenses in 1982; that is an average of 5222 per working day. 397,006 of those were new or out of state licenses; 1588 new Georgia drivers per working day.

DPS suspended or revoked 82,976 licenses. 50% of those were for DUI.

18% of all accidents occurred at night, but 38.5% of the fatal accidents were at night.

21% of the drivers involved in accidents were teenagers.

70% of all motorcycle accidents resulted in injury. 3.5% resulted in death.

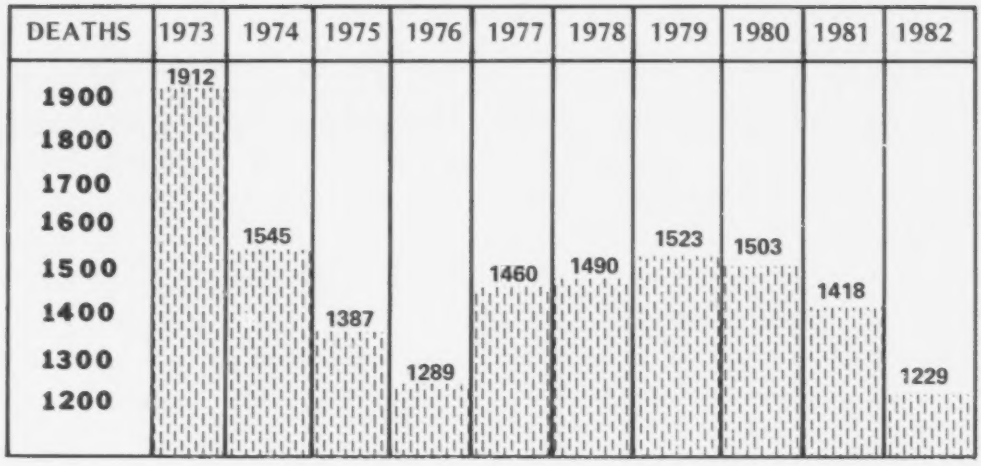
26% of all accidents resulted in at least one injury.

Injuries resulted from 87% of all pedestrian accidents. 8.2% were fatal.

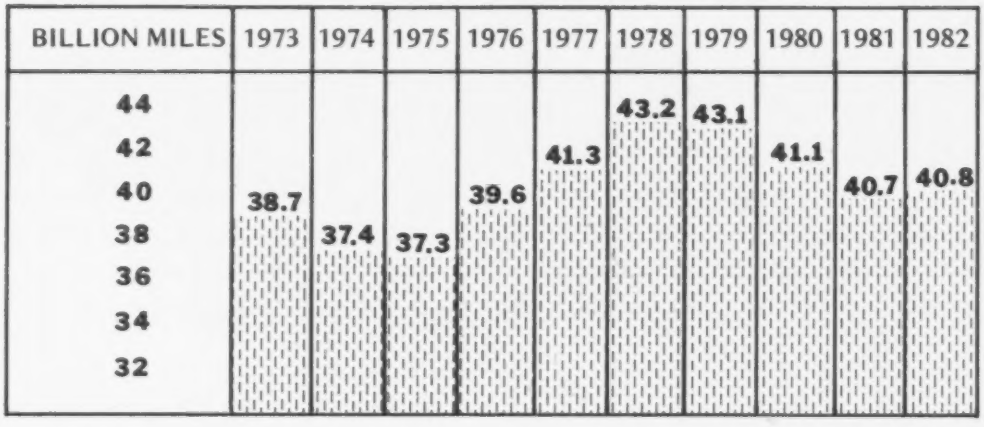
The 25–34 age drivers were involved in 25.7% of all accidents followed by 16.8% in the 20–24 age bracket.

GEORGIA
10 YEAR TRAFFIC DEATH TRENDS

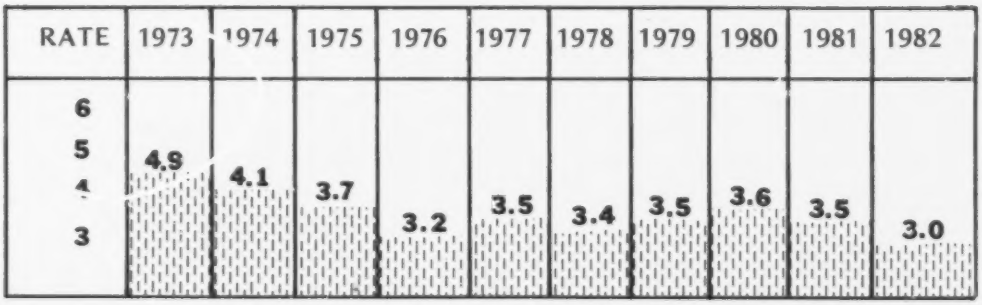
TRAFFIC DEATHS



ANNUAL MILES TRAVELED
IN BILLIONS



DEATH RATE PER 100 MILLION MILES TRAVELED



1982 HIGHLIGHTS

Georgia recorded a 20 year low in the number of traffic deaths in 1982, 1229 and set an all time low in the death rate at 3.0 deaths per 100 million miles of travel. This enviable record was set while the actual number of miles of travel remained constant with the preceeding year at just over 40 and 1/2 billion miles.

While most of the nation saw a reduction in traffic deaths averaging about 8 percent, Georgia's reduction was near 14 percent, leading the southeast.

Efforts of traffic safety agencies, both law enforcement and related, can be credited with a significant contribution to this death reduction. One of the key areas is visibility of the law enforcement officer.

The Georgia State Patrol made major improvements in this area in 1982..

The 1982 Session of the General Assembly repealed the state's 16 year old Motor Vehicle Inspection law requiring that vehicles be physically inspected annually in state approved facilities. It was replaced with a law which basically says individual motorists must keep their vehicles in safe operating condition and be able to withstand an inspection on the road or during a roadcheck by police. School buses would continue to be annually inspected by the State Patrol.

The repeal of the MVI law released 45 members of the State Patrol for reassignment to other duties. Their new duties, under a program initiated jointly by the Department of Public Safety and the State Department of Transportation, were to patrol in a high visibility campaign in areas of the state where DOT construction or maintenance projects were underway. The purpose of the patrols would be to slow traffic in the construction and maintenance sites and reduce the threat of bodily injury and death to construction workers. Such patrol would have the multiple effect of greatly enhancing the visibility of the State Patrol to the general motoring public. This program was highly successful and has resulted in dramatic increases in patrol miles, man hours, and overall increases in enforcement indexes of the Patrol.

This high visibility can also be credited with having a significant impact on the overall lower number of traffic deaths in 1982.

It is estimated that the State Patrol increased its visibility by as much as 20% in 1982. At the end of the year 694 members of the Patrol's 826 authorized officers were engaged in active day in day out road patrolling efforts, the highest number in the history of the Patrol. The Department believes that visibility coupled with firm and fair enforcement is the single greatest deterrent to the would be traffic violator and, consequently, has significant effect on saving lives.

Another program which eventually helped in the efforts to increase effective road strength of the State Patrol was the backing in 1982 by Governor Busbee of a plan to convert 50 radio operator positions to trooper, raising the total strength from 776 members to 826. Those newly trained officers are now on the road.

The one factor which may have had the most impact on saving lives on Georgia highways in 1982 was the considerable public concern about problems with drinking drivers. Extensive media coverage of existing loopholes in DUI laws and other public concerns resulted in the year long study by an 18-member committee made up of legislators, judges, and traffic safety experts whose mission was to recommend strengthening DUI laws. That mission would be complete in 1983.

But during the year in 1982, there was so much public discussion, news reports, and judicial examining of practices, it is believed fewer people actually would drink and drive, leading to better traffic safety records. In actuality , alcohol related fatal accidents dropped from 49% of all fatals in 1981 to 46% in 1982. But still, 600 alcohol related deaths was a sobering statistic.

In 1982, in an effort to improve its effective use of equipment, the Georgia State Patrol began a pilot program to evaluate smaller higher performing enforcement vehicles. If a necessary pursuit situation could be reduced in distance and time, the result was less exposure to danger of the officer, the public and the violator.

In recent years vehicle manufacturers had down graded both size and performance of vehicles. Police had no choice but operate with what was available. All this while the general driving public was operating with older high performance vehicles capable of speeds in excess of 120 mph and drag strip acceleration.

The Patrol's pilot program testing Mustangs and Trans Ams for specialized patrol functions, would emphasize judicious use of the vehicles by seasoned expert drivers whose main interest would be the safety of the general public.

The initial testing program began with three Mustangs and three Trans Ams. Later Governor Joe Frank Harris approved the expansion of the program to 10 additional Mustangs. Already the State of California had added 400 Mustangs to its Highway Patrol fleet and numerous other states and cities were watching Georgia's program with interest.

At the end of 1982 initial response was overwhelmingly in favor of use of the smaller higher performing cars to supplement regular full sized cars. In the instances when pursuit was essential for carrying out good law enforcement practice, the smaller cars were exceptional in their acceleration, pursuit, handling and braking. The effects on morale of the officers, who daily face the threat of potential danger in the interest of public safety, was immeasurable.

The Department of Public Safety feels 1982 was an exceptionally good year in terms of reduced numbers of traffic accidents, injuries and deaths; greater public and legislative concerns about the drinking driver; more effective use of manpower and progressive steps in improved equipment of all types. With the improving economy 1983 was looked forward to with the knowledge that a challenge lay ahead as greater efforts would have to be expended to continue a downward death rate.

Office of the Governor

Atlanta, Georgia 30334

Joe Frank Harris
GOVERNOR

To the Members of the Department of
Public Safety, State of Georgia

Dear Friends:

Georgia's highways are safer today than they have been in the past twenty years. In 1982 we experienced 1187 reported traffic deaths, down by 17 percent from 1981 when 1418 deaths occurred. The last time we had fewer than 1200 annual traffic deaths was in 1962 when 1106 were reported. This is a record of which we can be most proud. It reflects the diligent efforts of the Department of Public Safety and all law enforcement agencies to make our highways safer for our citizens.

In addition to the efforts of the Department of Public Safety, there has been an increased awareness of the need for highway safety on the part of the general public and the General Assembly. Efforts by the public and the media to enact strict drinking driver legislation assisted most ably in the passage of highly significant legislation in this area of concern by the 1983 General Assembly. I am most hopeful that vigilant enforcement of this law, and other new laws enacted by the General Assembly, will serve to contribute toward an even more enviable safety record on our highways in the years to come.

I want to express my appreciation for the outstanding accomplishments of the Department during 1982. It is a record for which each individual in the Department can be justifiably proud. I know that through your efforts we will experience continued improvement and increased safety for our citizens.

With kindest regards, I remain

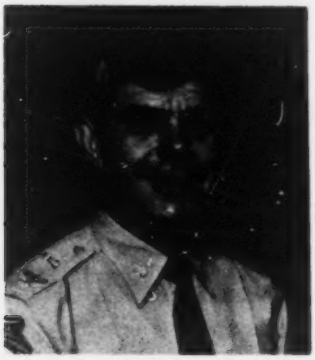
Sincerely,

Joe Frank Harris

Joe Frank Harris

Department of Public Safety
Post Office Box 1456
Atlanta, Georgia 30371-2303

Colonel Hugh Hardison
Commissioner



Governor Joe Frank Harris
Members of the General Assembly
Citizens of Georgia

We are pleased to present the 1982 Department of Public Safety Annual Report, a summary of activities for the past calendar year.

1982 was significant in that we recorded the lowest number of traffic deaths in 20 years at 1229. Not since 1962 had this few traffic deaths been recorded.

Travel for 1982 was over 40 BILLION miles, three times higher than 1962, giving us Georgia's lowest death rate in the history of the automobile at 3.0 deaths for each 100 million miles of travel.

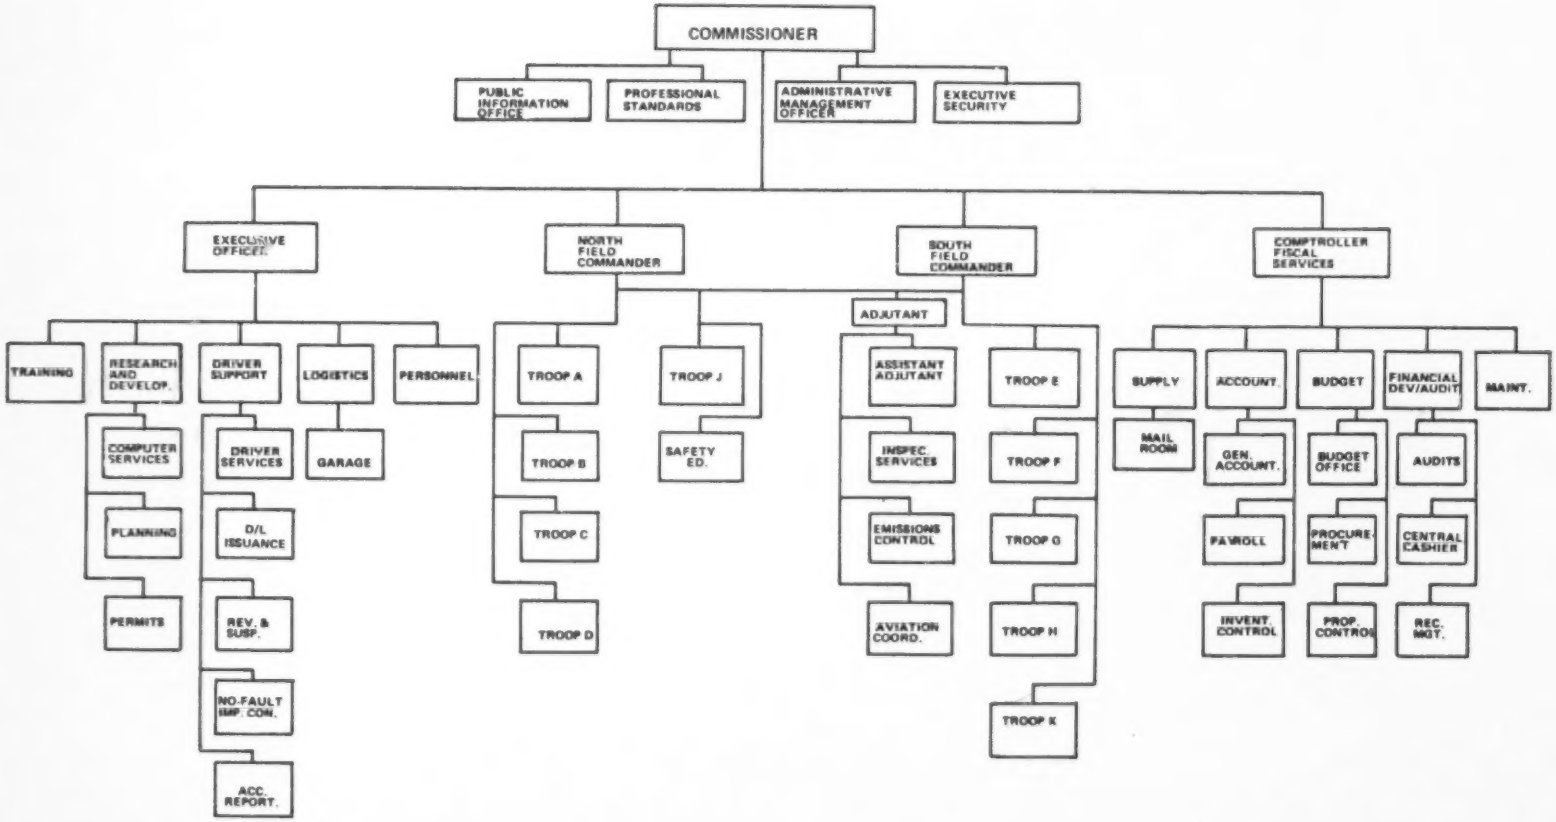
We made significant strides in the Department of Public Safety by better utilizing our manpower and increasing our visibility. Since the inception of the Georgia State Patrol, we now have the highest number of officers on the roads enforcing traffic laws.

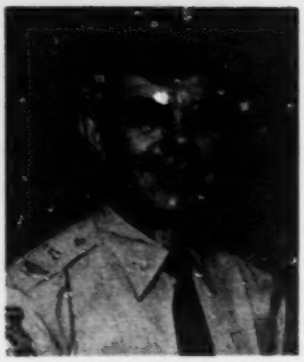
We shall continue our quest for economy, efficiency and excellence, ever mindful that we are servants of the public. Their welfare and safety are our prime interests.

Respectfully,

Hugh Hardison, Colonel
Commissioner

Organizational Chart





Georgia Department of Public Safety

Colonel Hugh Hardison

PUBLIC INFORMATION

The Public Information Office coordinates activities between the Department and the news media as well as preparing departmental publications and public service campaigns. The Graphics Unit handles designs, layout and artwork. The Photo Lab processes all department photographs and accident pictures.

PROFESSIONAL STANDARDS

The Professional Standards Unit provides legal and administrative assistance. This office conducts hearings, internal investigations and employment background investigations.

EXECUTIVE SECURITY

Executive Security, operating directly under the Commissioner, provides constant security for the Governor, his family, the Lieutenant Governor and the Speaker of the House.

Major K.D. Rearden

TRAINING SECTION

The Training Section plans and conducts law enforcement related courses for department members. All troopers are required to complete a 16-week basic training school conducted by the Training Section. Skills development, management courses, specialized schools and in-service training are also coordinated by this unit.

RESEARCH AND DEVELOPMENT

Research and Development includes Computer Services, Planning, Permits and Affirmative Action. The Planning Unit conducts studies of operations and policies and suggest plans for existing and future departmental operations. The Permits Section issues all emergency light permits, firearms licenses and radar permits.

COMPUTER SERVICES

The Computer Services Section coordinates between and assists users of the department's computer system. Micro-filming and data input are handled through this office.

DRIVER SUPPORT DIVISION

The Drivers Support Division oversees all phases of drivers licenses including issuance and suspension. Enforcement of the No-Fault Insurance and Implied Consent laws and the maintenance of Accident Reports are also under Driver Support.

GARAGE

The Department of Public Safety Garage maintains all department vehicles, stocks parts, handles vehicle records and equips patrol cars for duty.

PERSONNEL OFFICE

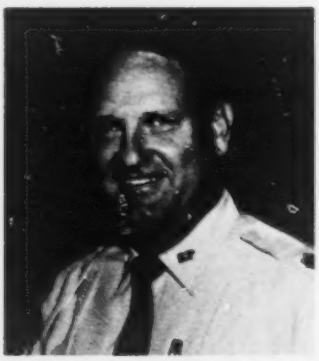
The Personnel Office is responsible for employment of all department personnel and maintaining all employee related records. Personnel coordinates with insurance companies, handles worker's compensation and implements the department's Affirmative Action Program.

Mr. Homer Brisendine

FISCAL SERVICES

Fiscal Services includes Accounting, Budget and Audit Units that are responsible for appropriating, receiving and accounting for the department's funds. The Payroll Office, Central Cashier, Procurement, Inventory and Property Control are under Fiscal Services as well as the Central Supply Office, Mail Room and Building Maintenance.

Major Tom Braswell



Major Ray Pinyan

GEORGIA STATE PATROL

The Georgia State Patrol is nine geographical troops totaling 47 patrol posts, plus the Adjutant's Office, Inspectional Services, Emission Control, Safety Education and GSP Aviation Section. The State Patrol is under the Command of a North Division and South Division Major. Radio Operators and License Examiners are also under this command. The Patrol's authorized strength of uniform personnel is 826 troopers, 195 radio operators and 140 license examiners.

Self Insurance

During the year of 1982 there were no new certificates of self-insurance issued. There were twenty-six (26) certificates of self-insurance valid through December 31, 1982. At that time all current certificates of self-insurance expired.

For the year 1982 this office received one judgment rendered against a self-insurer, however, this judgment was not finalized until 1983.
